**FOR IMMEDIATE RELEASE**

## **GPA Midstream Announces 2020 Safety Award Recipients**

**TULSA, Okla.** (April 21, 2021) – The GPA Midstream Association today announced recipients of its annual safety awards that recognize member companies for outstanding safety performances in the midstream industry during the previous calendar year.

“For 2020, even with the COVID-19 pandemic that dealt stressful safety challenges well beyond the norm, our members again delivered stellar safety performances that continue to reveal just how serious the midstream energy sector is about operating safely,” said Johnny Dreyer, GPA Midstream senior vice president.

Midstream companies of all sizes vie for the prestigious safety recognitions on a level playing field, with total midstream operational workhours determining where each qualifies within four divisions for both United States and international companies, based on eligibility criteria.
