

Centurion Pipeline L.P.

FOR IMMEDIATE RELEASE

CENTURION PIPELINE L.P. ANNOUNCES A DECEMBER 1, 2020 IN-SERVICE DATE FOR AUGUSTUS PIPELINE

HOUSTON – October 6, 2020 – [Centurion Pipeline L.P.](#) (“Centurion”) today announced that the Augustus Pipeline is on schedule and expected to commence service on December 1, 2020. The 20”/18” Augustus Pipeline provides true physical connectivity for WTI, WTL, and WTSR from Midland, Texas to Crane, Texas. The Augustus Pipeline connects Centurion’s existing Midland Terminal, which currently has approximately 2 million barrels of storage capacity, to multiple long-haul pipelines originating at Crane, Texas. If you have questions about transportation on the Augustus Pipeline, please contact Scott Hutson at Scott_Hutson@centurionpl.com.

About Centurion Pipeline L.P.

Centurion Pipeline L.P. is a crude oil pipeline operator that owns and operates approximately 3,000 miles of pipeline extending from southeast New Mexico across the Permian Basin of West Texas to Cushing, Oklahoma. With a significant crude oil storage facility in Midland, Texas, that has the capability to store approximately 2 million barrels of multiple qualities of crude oil, the company is well positioned to accommodate customer demand. Centurion is a wholly-owned subsidiary of [Lotus Midstream, LLC](#).
